The password must be 8 characters minimum and include at least one lower case letter, one upper case letter, one number and one special character.

The password must be 8 characters minimum and include at least one lower case letter, one upper case letter, one number and one special character

Getting started

3

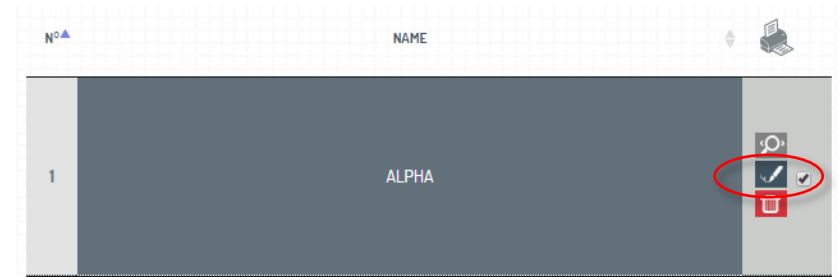

Go to « **Admin Console / Frameworks** » and define your risk mapping approach (assessment scales; matrixes; risk universe)

4

You can use the **standards framework** created by Arengi to get started.

To customise Arengi's framework click on the pencil icon

Getting started

5

Click on the « **Assessment scales** » and « **Matrixes** » tabs to customise your approach

– FRAMEWORK

6

Make sure you save all the changes you make by clicking on the « **Save** » button on the bottom of each page

7

Define your assessment 'scales' and matrixes, and start your risk analysis

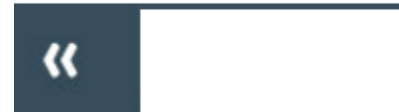

You can also create different « **Risk universes** » and « **Classifications** » (e.g. processes, regions, departments...)

– FRAMEWORK

8

To start your risk analysis click on the **ArengiBox logo** (top of the screen)

Getting started

9

Click on « **Create a risk map** »

— RISK MAPS

10

You can now start your risk mapping process
